

**Bioethics Text:** (circle choice) **Cloning** (required set) **Chimeras** (set) **CRISPR**

<p><b>Premise</b>          What is the premise of the text or text set? Provide a concise but thorough summary that includes the technology in question and the source(s) of contention. What side does the text set take, if any? Demonstrate that you read/watched/listened to the whole text.</p>

**Pro/Con Arguments**

Pro arguments – specific quotes/paraphrase and time markers if applicable	Con Arguments – specific quotes/paraphrase and time markers if applicable

Your response: After reading the article(s)/listening to the podcast(s), what is your position on the issue? Should the technology be allowed/limited? Why? Use the specific examples you have chosen on the previous page to support your stance. Avoid “I” statements.

Sample idea starters:

- \_\_\_\_\_ presents an argument/information regarding \_\_\_\_\_
- This study/technology supposes/proposes/suggests/promotes \_\_\_\_\_
- While some benefits can be seen, such as \_\_, the costs far outweigh the benefits as \_\_
